Reason for allowance

The following is an examiner's statement of reasons for allowance: in view of the amendment filed on 07-18-05, the prior art reference of records (US Pat. 6,744,296) fails to teach or fairly suggest a device to control a sense amplifier comprising a resetable control circuit having first, second, third inputs and an output; wherein the first input is coupled to an output or to a ground; a reset signal generator having two input coupled to the outputs of the sense amplifier and an output coupled to the third input of the resetable control circuit as called for in claim 1; device to control a sense amplifier comprising a D flip-flop circuit having first, second, third inputs and an output; wherein the first input is coupled to an output, the third input receiving the output signal of the sense amplifier as called for in claim 13; a device to control a sense amplifier comprising a D flip-flop including first to fourth passgates, fifth to sixth inverters and a first NAND gate as called for in claim 22. Therefore, claims 1, 4-9 and 11-23 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
